

Panels

4.1_ MDF

Medium density fiberboard (MDF) is an engineered wood product made of wood fibers, wax and resin. MDF is an ideal surface for painting, application of direct glue wall-covering, or a base for upholstered panels. See Product list for sizing. Colors for representation purposes only

MDF
6mm [1/4"]

4.2_ Magnetic marker board

Double-sided magnetic marker board is a white dry erase board. See Product list for sizing. Colors for representation purposes only

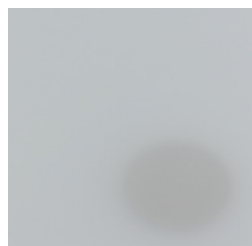

White
6mm [1/4"]

4.3_ Laminated glass

Laminated glass, often referred to as "safety glass", is strong and durable and designed to maintain its integrity in the event of breakage. See Product list for sizing. Colors for representation purposes only

Clear
6mm [1/4"]

Diffused white
6mm [1/4"]

4.4_ Tempered glass

Tempered glass is manufactured to exact size and is stronger than regular glass. If broken the glass shatters into small fragments instead of sharp shards. See Product list for sizing. Colors for representation purposes only.

				
Clear 6mm [1/4"]	Satin etched 6mm [1/4"]			

4.5_ Mirrored glass

Silver mirror backed with a safety film. Single-sided mirror only, best used for closets. See Product list for sizing. Colors for representation purposes only.

				
Mirror 4mm [5/32"]
